Bob Timberlake and Lissara

Bob is always seeking opportunities to express his creativity and even considers himself a "frustrated architect". He has proven adept at combining his appreciation of the great outdoors with his artistic endeavors and "designs from the outside in". Lissara offered an opportunity to celebrate the beauty of the landscape through his unique architectural design; the result is seen in the recurring theme of the millstone, the rustic elegance of the stone and poplar bark-clad lodge, and the signature handwrought details throughout the neighborhood reminiscent of a simpler time. This "beautiful valley" (the translation of "Lissara" from ancient Irish) with its mature woodland and breathtaking lake offers you the full range of Nature's palette.
